

TigerTurf™ CHAMPIONSHIP+

Combining durable XPS slit film and playable Diamond monofilament fibers with thatch at the base, players get a heavier, more consistent playing surface.

The texturized monofilament thatch helps to reduce infill splash, decrease infill migration and provide additional shock absorption. Teams will enjoy a field that not only looks great, but feels and plays great, as well.

Pile Height, Max Thickness, Face Weight, Primary & Secondary Backing, and Total Weight can differ by ±10%. The Stitch Rate will change according to the exact specifications and can differ by ±1. Roll Width can differ by ±0.8 inch.

TenCate Grass has the right to alter each product specification in order to improve the system according to the latest standards. TenCate Grass is not legally liable in case of noncompliance with the above mentioned specifications.

*Face Weight reflects entire length of yarn, including portion woven into backing, which is consistent with standard ASTM method of measuring tuft including back stitch.

For details on thatch color, refer to the Standard Color Sheet. *Lime Green is shown for color reference only. Lime-only turf is not available.
